## How to Price Square Corner Labels *Conversion Chart*

**Example:**

You want to order 2,000 one color labels that measure 2½" (in width) x 4½" (in length)...

1. Convert inch measurements to decimals. (See Chart)
2. Multiply width x length (2.125 x 4.50) = 9.562 sq. in.
3. Find correct square inch size in left hand column. Then locate correct quantity column.
4. Your price per thousand is where size & quantity columns intersect: \$95.46/M x 2 = \$190.92

1/8" = .125
1/4" = .250
3/8" = .375
1/2" = .500
5/8" = .625
3/4" = .750
7/8" = .875

+Lamination is not recommended for Tamper Evident Paper labels. The lamination acts as a barrier for the label to act properly when tampered with. If a coating is required, UV will be applied and priced at one additional color. PMS color matches will have a slight variance from standard semi-gloss. Once applied, allow at least 24 hours for the adhesive to anchor properly. Because of the unique construction of the label, the waste matrix/stripping cannot be removed, and are only available on rolls. Pre-testing is always recommended, so please ask for free test samples.

## White Destructible Vinyl<sup>+</sup>

Tampering with this type of security label causes the label to fragment into pieces. Place these labels indoors or outdoors away from direct sunlight. A clear UV coating is applied for added protection. Please note: waste material around outside edge of label cannot be removed.

## VOID Polyester\*

Any attempt to remove a VOID Polyester label will leave an approximate 3/16" "VOID" pattern on the surface it is adhered to. Available in white or silver, this is the top of the line security label solution. Lamination will be applied for added protection and durability.

**Artwork Requirements: See (A) Spot Color or (B) 4-Color Process**  
**Important:** Send a copy of your original file. Always keep a backup of your original artwork – disks or files could be lost, damaged, or corrupted. Physical artwork/plates are kept on file for two years after last order.

- (A) Spot Color (single colors) or Line Work Requirements:**
- Digital electronic art is preferred. Please complete the “Electronic File Guide” to insure the details are covered on how to supply digital art without additional costs or delays. This guide is found on the back of each order form.
  - High-resolution, black and white camera-ready artwork is also acceptable. Please include a 1/16" no-print margin on all sides if labels are to be square cornered on rolls. This art should be a high-resolution laser copy or PMT.
  - Photocopies and faxes are not acceptable forms of artwork.

  - Following and completing the “4-Color Process Electronic File” form is necessary in producing your order accurately, preventing delays, and avoiding additional charges.

**Auto/Machine Applied:** Auto/Machine Applied (or inserted) labels have special requirements such as trimming the liner and more. The labels in this catalog are normally provided for hand application. Please communicate auto/machine/dispenser requirements so your labels are finished correctly. Additional costs may apply.

**Barcodes:** Static barcodes available for a variety of applications. UPC barcodes are created at no additional cost with guaranteed readability. Price for other varieties of barcodes is \$7.00 (flat). If you provide the barcode, we cannot guarantee readability. See page 36 for consecutive barcodes.

**Blank Labels:** 20% discount on catalog pricing.  
**Bleeds:** \$12.00 per color. Bleeds are considered ink that runs to the edge of the label. When providing artwork, please extend bleed area(s) 1/16" outside label's edge. Applies each time order is run. Not available on square cornered labels on rolls.
